Information and required supplies needed for the first week of classes

Assumption of Risk form:

If you are under 18 years of age, this must also be signed by a parent of a legal guardian.

Proof of vaccinations:

Tetanus and Rabies vaccinations are required.

A photocopy of proof is acceptable.

If it has been more than 10 years since your last tetanus vaccination, a booster is required.

Required equipment for 1st year students:

We highly recommend that you purchase this equipment prior to your arrival at CMC.

- Lab coat:
 - Long-sleeved, hip length or longer
 - Used in Anatomy & Physiology, Clinical Pathology, Animal Handling & Restraint and Microbiology labs
- Thermometer:
 - Digital
- Watch:
 - With a second hand for obtaining heart rates
- Stethoscope:
 - Range in price from \$15 - \$200
 - A quality stethoscope can be purchased for approximately \$75
 - We do not recommend that you purchase a \$10 stethoscope from a discount store, you will be disappointed.
- Pocketknife:
 - Small, with a 2.5” to 3” blade that locks when open (no switchblade)
 - May be used when working with large animals
- Calculator:
